* INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.
PCT/KR 2004/002590

| Ĭ. | | Basis of the report | | | | | |
|----|---------------|---|--|--|--|--|--|
| 1. | | With regard to the elements of the international application:* | | | | | |
| | \boxtimes | the international application as originally filed | | | | | |
| | | the description: pages, as originally filed pages, filed with the demand pages, filed with the letter of | | | | | |
| | | the claims: | | | | | |
| | | pages, as originally filed pages, as amended (together with any statement) under Article 19 pages, filed with the demand pages, filed with the letter of, | | | | | |
| | | the drawings: pages, as originally filed pages, filed with the demand pages, filed with the letter of | | | | | |
| | | the sequence listing part of the description: pages, as originally filed pages, filed with the demand pages, filed with the letter of | | | | | |
| 2. | whic | h regard to the language, all the elements marked above were available or furnished to this Authority in the language in the international application was filed, unless otherwise indicated under this item. se elements were available or furnished to this Authority in the following language which is: | | | | | |
| | | the language of a translation furnished for the purposes of international search (under Rule 23.1(b)). | | | | | |
| | | the language of publication of the international application (under Rule 48.3(b)). | | | | | |
| | | the language of the translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3). | | | | | |
| 3. | With preli | h regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international iminary examination was carried out on the basis of the sequence listing: | | | | | |
| | | contained in the international application in printed form. | | | | | |
| | | filed together with the international application in computer readable form. | | | | | |
| | | furnished subsequently to this Authority in written form. | | | | | |
| | | furnished subsequently to this Authority in computer readable form. | | | | | |
| | | The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished. | | | | | |
| | | The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished. | | | | | |
| 4. | | The amendments have resulted in the cancellation of: | | | | | |
| | | the description, pages | | | | | |
| | | the claims, Nos | | | | | |
| | | the drawings, sheets/fig | | | | | |
| 5. | | This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).** | | | | | |
| • | in this | cement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to s report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and | | | | | |
| ** | 70.17, |). enlacement sheet containing such amendments must be referred to under item 1 and annexed to this report. | | | | | |

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

D2: HEO et al., "Ursolic acid of Origanum majorana L. reduces Abeta-induced ixudative injury", Molecules and Cells, 20 Feb. 2002, Vol. 13(1), pp. 5-11

D3: KR 2003-0042123 A (KOREA RESEARCH INSTITUTE OF BIOSCIENCE AND BIOTECHNOLOGY) 28 May 2003

D4: SHIN et al.,"Ursolic acid protects hippocampal neurons against kainite-induced excitotoxicity in rats.", Neuroscience Letters, 20 May 2004, Vol. 362(2), pp.136-140

D5: KITANI et al., "Pharmacological modifications of endogenous antioxidant enzymes with special reference to the effects of deprenyl: a possible antioxidant strategy", Mechanisms of Ageing and Development, Nov. 1999, Vol. 111(2-3), pp. 211-221

D6: US 6607758 B2

D7: US 2002/0042535 A1

The subject matter of claims 1-5 (= first medical use claims) is anticipated by D1 and D2, which refer to the use of ursolic acid (= one of the presently claimed compounds) in medicine.

The relevance of D3 is not understood, because it refers to the use of tiarellic acid, which structurally differs from the compounds presently claimed.

After filing of the priority document D4, which was published within the priority term, is not anymore a relevant document.

Furthermore, the classification of D5 as "A"-document is not comprehensible, because it discusses the pharmacological activity of ursodeoxycholic acid resp. ursolic acid; the latter is claimed in the present application.

D6 discloses a method of inhibiting amyloid formation consisting in the administration of a therapeutically effective amount of plant matter from a plant of the genus Uncaria.

D7 refers to a steroid compound, which can be used for the treatment of cancer, neurodegenerative diseases, etc..

Consequently, in respect to D1,D2 and D5 claims 1-5 are neither new nor inventive.

Industrial applicability is given.
